CHIEF CLERKS OFFICE

**REQUEST FOR RECONSIDERATION OF A
REQUESTED CONTESTED CASE HEARING**

**TO THE EXECUTIVE DIRECTOR OF THE TEXAS
COMMISSION OF ENVIRONMENTAL QUALITY:**

**I, AIDE A. SUSTAITA, RESIDENT OF THE
COLORADO RIVER RANCHETTES**

19301 BARB ROAD, CEDAR CREEK, TEXAS 78612

**HEREBY REQUEST A CONTESTED CASE
HEARING RECONSIDERATION ON THE NOTICE
OF APPLICATION AND PRELIMINARY DECISION
FOR LAND APPLICATION PERMIT OF SEWAGE
SLUDGE PROPOSED PERMIT #WQ0004941000 BY
SYNAGRO OF TEXAS-CDR, INC
1002 VILLAGE SQUARE DRIVE, SUITE C
TOMBALL, TEXAS 77375**

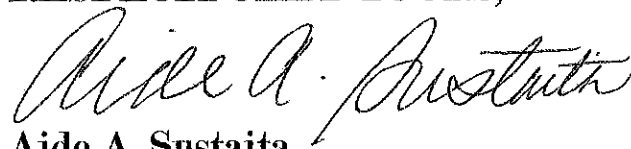

FOR THE FOLLOWING REASON(S):

Sewage sludge runoff is very high and probable due to the flooding problems that are pre-existing between the Colorado River Ranchette properties and the Mellebach Ranch. The flooding problems extend along the property line from HWY71 to the Colorado River. I have attached copies of photos taken after the most recent rainstorms.

The nuisance of foul odors due to the close proximity will impact the safety of my health and the surrounding community's health in any type of outdoor activities. It places us at risk for infestations of mosquitos and flies that carry disease.

After speaking with some of our residents, it has become evident that the notification system is inadequate due to lack of bilingual literature and inaccurate owner information.

RESPECTFULLY YOURS,

Aide A. Sustaita

PHOTO #1 this photo shows the road sign to Empedrado Drive, the structures to the left are the Colorado River Ranchette residents.

PHOTO#2 this is the entry to Empedrado Drive. That is not a lake, it's standing water from recent flooding in our area and the Mellenbach Ranch. This area has always flooded during rainstorms. A proposal to dump sewage sludge would most definitely cause runoff issues.

#1

#2

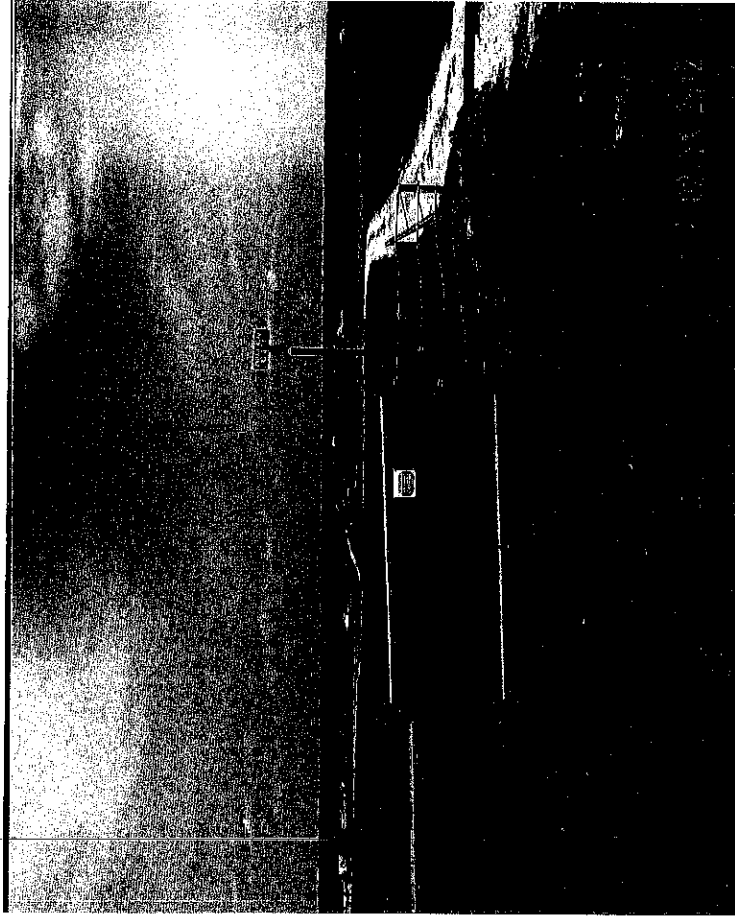

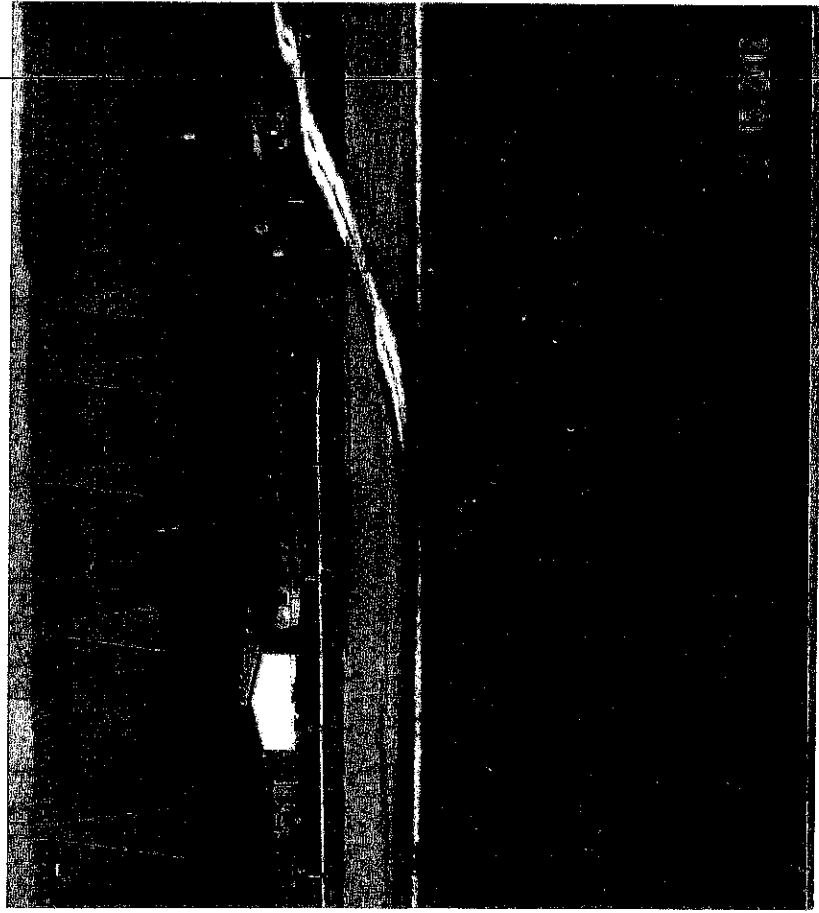

PHOTO#3 This is a close up of the flooding water at Empedrado Drive. (The proposed site)

PHOTO#4 indicates the magnitude of the flooding from the residential area into the proposed site.

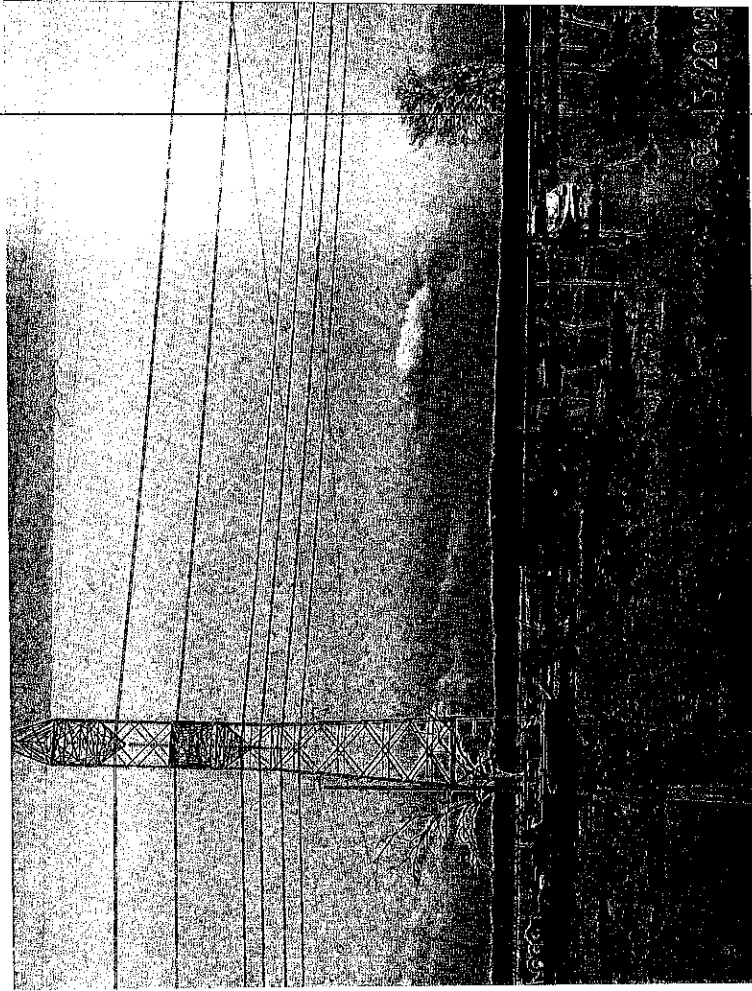

#3

#4

PHOTO#5 & 6 This are views of the flooding from a Colorado River Ranchette residence that extends from Tuckerhill Road past the property line towards Empredado Drive.
